

Before the first use

Cut

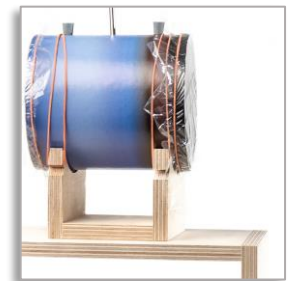

- ✓ four gas planets → the two small in bag ①, the big ones into the A3 folder
- ✓ Solar background → A3 folder
- ✓ Arrows → the three small in bag ④, the big ones into the A3 folder
- ✓ Labels and numerical values → in bag ④
- ✓ 28 playing cards → in bag ⑫
- ✓ pH value chart → in bag ⑨

Cut and glue

- ✓ Paper bodies "Ice" and "Rock" (see below) → fold in the middle and glue with space for thermometer (see picture) → in bag ②

Furthermore...

- ✓ Check whether the wooden holder for the cardboard tube can be pushed well into the holes provided in the frame and is then firmly seated. If not, use a screwdriver or pliers to tighten or loosen the screws slightly.
- ✓ Prepare ice cubes (activity 6)
- ✓ Get sodium bicarbonate and citric acid in powder form at the drugstore

Good luck with your work with the climate case!

Paper body "Ice" and "Rock" to activity 2

This is how the thermometers belong in the paper bodies!
